PLEASE PRINT THIS MESSAGE FOR YOUR RECORDS - PLEASE READ THIS EMAIL IN FULL.

If you have requested a domain name during sign up, we will register this domain once your payment has been cleared, this can take 24 hours.

Dear Nicholas La Roux,

Please keep in mind that your domain name will not be visible on the internet for between 24 and 72 hours. This process is called Propagation. Until your domain has Propagated your website and email will not function, we have provided a temporary url which you may use to view your website and upload files in the meantime.

IMPORTANT: Make sure you upload your files to the PUBLIC_HTML or WWW directory on the server otherwise they will not be visible on the internet. Also, please be sure that your homepage is saved as an "index" file e.g., index.htm, index.html, index.php, etc. We also suggest you download Filezilla from http://filezilla-project.org/download.php if you do not already have an ftp client.

Below are your account details, you will need your username and password to access ftp and your control panel.
